CHURCH INVOKES WORLD PARLEY TO CURB DOPE

Protestant Episcopal Convention Will Ask Hughes to Take Initial Steps

(BY A. P. MORT WIRE)
PORTLAND (Or.) Sept. 12.—An international conference for the control of the narcotic traffic is asked for by a resolution adopted today by the House of Deputies of the Protestant Episcopal Church, in general convention here.
The resolution, which was introduced by Rev. W. H. Bliss of Seattle, provided for the appointment of a committee of one bishop, one presbyter and one layman to call upon Secretary of State Hughes to ask him to take steps to make effective the provisions of a protocol adopted by the conference at The Hague in 1914.
Rev. Mr. Bliss addressed the house describing the extent of the drug traffic, and the need for a change in the law. He stated that the drug traffic is a world-wide problem, and that the United States is not alone in being affected by it. He called for a change in the law, and for a more effective enforcement of the existing laws.

BISHOPS OUST "OBEY"
The resignation of Bishop R. L. Padlock of Hood River, Or., bishop of Eastern Oregon, was accepted today by the House of Bishops. The House of Bishops adopted a resolution declaring that the action had been taken with profound regret on account of the condition of Bishop Padlock's health.
The resignation merely applies to his jurisdiction and he still remains a bishop of the church. The House of Bishops later voted in favor of taking the word "obey" from the marriage ceremony of the church. In reference to the words "with my worldly goods I thee endow" the bishops voted to refer this portion back to the commission on the subject of marriage.

STUDY OF HEALING ASKED
A resolution asking that a new commission be appointed to study the healing of the sick, and to report on the subject at the next convention of the church, was adopted today by the House of Bishops. The resolution was introduced by Rev. Dr. A. R. Kin-solving, of Baltimore.
The House of Bishops today found itself in an awkward position, according to the statement of Bishop W. C. Brown, chairman, who called attention to the fact that the parliamentary practice had been violated in asking the House of Deputies to appoint a committee of conference on the constitutional amendment providing a vote in the House of Bishops by suffragan bishops, as the deputies had not approved the amendment.

BOARD RELEASED
Bishop W. T. Manning of New York, moved that the message be recalled and this was adopted over a protest by Bishop M. A. Guesey of South Carolina. Rev. Dr. C. A. Jenson of Buffalo presented to the House of Deputies the report of the joint commission on church statistics.
The House of Deputies discharged from further activity and thanked the commission on a memorial of the first convention at Jamestown, Va., in 1867. The committee on the subject of the House of Deputies, brought about the adoption by the House of Deputies in the general convention here of an amendment to a canon which will make it possible to license women as lay readers.
Under this new rule it will be possible for women to read certain portions of the services of the church where no male clergyman is available or when absent. Women, however, will not be permitted to administer the sacraments of the church to male members. The House of Bishops enacts this amendment it will go into effect the first of next year.

WOMEN GAIN GROUND
The movement for greater recognition of women in the Protestant Episcopal Church in the United States, which has already resulted in a report by a joint commission favoring admission of women to the House of Deputies, brought about the adoption by the House of Deputies in the general convention here of an amendment to a canon which will make it possible to license women as lay readers.
Under this new rule it will be possible for women to read certain portions of the services of the church where no male clergyman is available or when absent. Women, however, will not be permitted to administer the sacraments of the church to male members. The House of Bishops enacts this amendment it will go into effect the first of next year.

PAVING CONTRACTOR MAY SUE FOR MONEY
Imperial County Road Fund Sued to be Short \$20,000
EL CENTRO, Sept. 12.—With the Imperial County Highway Commission's fund \$20,000 short, E. R. Werder, president of the Los Angeles Paving Company, is threatening suit to collect money due him for the construction of a paved road between Brawley and California. It is asserted that Werder used 800 tons more material in the road than contracted for and handling it through the Willie road-paving process entailed an additional expense of about \$1000, although the material was provided by the county, which now wants him to pay for the excess material shipped to Brawley on the county road which will amount to \$1200.

JUNE RAIL REVENUE ON FREIGHT LARGER
(BY A. P. MORT WIRE)
WASHINGTON, Sept. 12.—Preliminary reports of the steam railroads, issued today by the Interstate Commerce Commission, revealed an increase of about \$10,000,000 in freight revenues during June, as compared with June 1921, and a decrease of approximately \$4,000,000 in passenger revenues. Freight revenues during June aggregated \$231,000,000 compared with \$231,000,000 in June a year ago. Passenger revenues during June aggregated \$58,000,000 against \$62,000,000 in June 1921.

NEW RATE PLEA HEARING BEGINS

New York-California Tariff Again is Wanted

[BY A. P. MONT WIRE]

CHICAGO, Sept. 12.—A hearing of the plea of the Southern Pacific Railroad for a return of the water and rail rates between New York and California ports, via Galveston, which were suspended in June, 1917, started here today before the Interstate Commerce Commission through its special examiner, F. C. Hillyer of Washington.

According to Mr. Hillyer, the hearing will continue all this week, after which the testimony will be sent to Washington. The commission will announce a decision within three months, he says. The plea of the Southern Pacific in seeking the return of its rates, if granted, would mean that its rate on water and rail shipments from New York to California would be the same as the rates applying to all rail shipments from Chicago to California. The Southern Pacific believes this reduction must be made to meet Panama Canal competition.

PLAN IS OPPOSED

The reduction is opposed by five other railroads, railroad or utility commissions of six states, as well as several chambers of commerce and the Chicago Shipper's Conference.

F. H. Plaford, assistant director of traffic of the Southern Pacific Lines, declared that in June, 1917, the relief from the provisions of the long and short-haul clause on westbound transcontinental traffic was withdrawn by the commission because ships which had been using the canal route abandoned that service and were put into overseas traffic resulting from the war.

The Interstate Commerce Commission in 1918, he declared, granted permission to the Southern Pacific to equalize the New York-California water and rail rates with the Chicago and California all-rail rates. War conditions, he said, caused this equalization to be cancelled before it was put into effect.

SHOWS DIFFERENCE

"It is a mistake to say," Mr. Plaford said, "that the Southern Pacific's policy was to carry the Chicago rates from New York, the actual fact being that it was the policy of the rail lines from Chicago, including the Southern Pacific's rail lines, and their connections to carry the water rates at a competitive New York rates from Chicago."

The equalization of New York-California and the Chicago-to-California rates would be a severe blow to Middle West shippers and manufacturers, Mr. Plaford said, because they would be discriminatory. He said further that such cities as Detroit and other Middle West points would be virtually eliminated from the Pacific Coast trade.

REPUBLICANS ORGANIZE

(REUTERS DISPATCH.)

SANTA BARBARA, Sept. 12.—Fred H. Schaefer, local attorney, was today elected chairman of the Republican county central committee and Irvin E. Kramer, real estate man and former assemblyman, secretary. Mark Bradley, banker and former county recorder for many years, was elected chairman of the Democratic county central committee and E. J. Shedd, secretary. Both committees adopted resolutions pledging support to party candidates for Governor, Senator and assemblyman.

SANTA BARBARA, Sept. 12.—The suit of Charles Farris against the Agricultural Insurance Company and the Alliance Insurance Company to recover insurance claims as a result of a fire which destroyed his showrooms here last winter was dismissed in the superior court today. Back of the suit was the arrest of Farris and his partner, F. H. Kady, Los Angeles silk merchants, charged with setting fire to the display room here to recover insurance.

WALLACE McCUTCHEON IS IN SANITARIUM

(BY A. P. MONT WIRE)

WASHINGTON, Sept. 12.—Wallace McCUTCHEON, Paul White's divorced husband who has been missing a year, is in a sanitarium in the national capital. This information has been furnished by the police department of New York by Post Master McCUTCHEON, brother of Wallace.

After a brief speech setting forth his admiration of the Hollywood spirit, Doug produced a crown used by the character of Richard Hood and placed it on the head of Mr. Toberman. Alack-a-day, however, the lion-headed one must have had the big head, for the new wearer, like Coogan, declined the honor of the crown because of its magnitude, not once, but twice and mayhap even thrice, then it was forced on him that he might be photographed with it.

Thereupon was the contract for the picture of "Robin Hood" shouldered by the Hollywood theater, which Grauman is now plotting. The date of premiere is now uncertain, but is whispered to be October 18, which would probably make the first showing here coincide with the premiere in New York.

Lovers' Quarrel Eekes Death Threat, but Water Too Cold, Police Say

By a "Times" Staff Correspondent (REUTERS DISPATCH)

VENICE, Sept. 12.—According to a police report on file in the police station here Donald R. Lesson, a cinema actor, residing at 454 South Bonnie Brae avenue, Los Angeles, tried some cinema stuff in real life yesterday.

Here's the scenario: Lesson quarrels with his sweetheart. He registers grief and desires to die. Tells sweetheart that he is going to the "great beyond" and bids her good-bye.

Appears at Venice bathhouse. Carries package under arm. Dances and goes out to beach. Registers grief. Finds water very cold. Bathhouse attendant and other bathers take to the "great beyond" and bids her good-bye.

At Mr. Lesson's home tonight, however, he was found he had not been there today.

Japanese Park Not Dangerous, Say Army Men

The War Department yesterday dropped its inquiry of the project to establish a Japanese pleasure resort near Fort MacArthur, Los Angeles Harbor, said a dispatch last night from Washington. Secretary of War Weeks said the special board of army officers assigned to look into the question had reported that the project in no way would endanger the coastal defense at Los Angeles. The text of their report was not made public.

California members of Congress had urged the project in response to complaints from home. It was held that the Japanese pleasure park would be located so near the fort that in event of war the position of the guns could be observed and reported. Mr. Weeks assigned his staff officers to make a report of the matter, and in their opinion the fears are more about the matter.

Nab Employee of Studio on Vice Charges

Assaulted by the police to have preyed upon young women who applied for work at a motion-picture studio where he was employed, Lewis Harper, aged 41, 4618 Pinyon street, was arrested yesterday by Officers Hodges and Johnson and booked on four serious charges including assault and battery. Harper was set at liberty.

Harper is alleged to have made promises of motion-picture fame to gain the confidence of the women. The officers declared that they observed him making improper advances to a young woman at the radio station at 4440 Broadway, and to her arrest. The arrest of Harper is one of a number made by Officers Hodges and Johnson in a campaign of vice suppression.

Dejan a Villa dos de sus hombres en el Pao (Repub. de Cuba). Según informan recibidos aquí, dos prominentes líderes villistas se han separado del Caudillo, el rancho de Villa, en Durango, declarando que no se les había tratado equitativamente al repartir los comarcas. Uno de ellos es el General Paulino Miguel, quien ha salido de Villa, y el otro es el General Esteban Hernández, quien se encuentra en Juárez, que estuvo en muchos encuentros al lado de Villa en los últimos días de la revolución, también se ha ido del rancho.

Ninguno de los referidos jefes de policía con Villa, pero ambos tienen rencillas con uno de los lugartenientes de este en el rancho, según se afirma.

BEAN PRICES LOWER
The California bean market during the past month has been featured by the steady decline from the prevailing high levels for spot stocks toward the lower quotations for new crop beans, which are now being harvested. Commenting on the market's action, the latest issue of the California Bean Growers Journal states that the only strong point in the sagging market was the firmness of Mexican Reds and Blackeyes beans, where the prices for spot stocks were already low and therefore in line with the quotations made for early shipment of new crop beans of these varieties.

Crude Oil Gives Mankind Wide Variety of Products From Coke to Alcohol

BY CHAPMAN HALE

Crude oil, black, sticky, smelly, the most unpromising looking material which comes in a natural state from the bowels of Mother Nature yields to the use and benefit of mankind nearly 300 commercial products, ranging from sulphuric acid to face cream, and from coke to alcohol.

The first products in the process of refining are hydro-carbon gases, from which liquefied gases are made that are used in metal cutting and illumination; in laboratories and other work. A large group of alcohols is derived from these gases. Gas black is another of the children of the hydro-carbon gases used in rubber tires, inks and paint.

On the border line where the hydro-carbon gases and the white distillates merge the naphthas and refined oils begin to appear. They are light, intermediate and heavy naphthas. Intermediate naphthas furnish aviation and motor gasoline, commercial solvents for rubber and other work. Light naphthas furnish varnish makers and painters, and benzine.

Refined oils also come from the white distillates including kerosene signal oil and mineral seal oil from which come the most efficient illuminants and gas absorption oils.

Heavy distillates supply white oil, used by bakers and candy makers, fruit and egg packers, and medicinal oils for internal and external use. They also supply most of the heavy oils, cutting oils for emulsions, electrical transformer, and benzine.

There is no State in the Union," said Mr. Dunham, "whose irrigation district bonds, issued under present laws, are more properly entitled to the confidence of the conservative investor than Idaho. Increases of crop production, increases in cultivated area, crop values and climatic transportation and other conditions make the Idaho farmer entitled to consideration by the investment banker and his client."

As investment propositions, California normally are interested in irrigation bonds, but Mr. W. Dunham, of the firm of Drake, Riley & Thomas, who has returned from an extended visit to Idaho, points out the unusual value of Idaho irrigation district offerings.

Idaho irrigation districts are the only ones in the United States which are automatically made legal in the event of a change of ownership. Insurance companies, State and school funds, etc.

Idaho irrigation bonds are prior liens on the lands embraced, where values are at least twice the amount for which the districts are bonded, and are now obtainable at prices to produce a far greater yield than do similar bonds in California.

IRREGULAR REACTION IN MARKET

Autumn Business Revival May Be Retarded Because of Fuel Distribution

(REUTERS SERVICE.)
NEW YORK, Sept. 12.—The irregular reaction in today's stock market did not indicate any change in the general situation or any new turn in the financial or industrial news. It appeared to represent the kind of halt which comes at frequent intervals in a more or less speculative upward movement accompanied by realization sales on the one hand and on the other by effects of speculators for the decline to test the market.

Such pressure is undoubtedly applied on the theory that autumn revival of business may be retarded more than had been expected or that the problem of fuel distribution may turn out to be more troublesome than was hoped, or that political occurrences may again become disturbing. All these are debatable considerations but no more so than they were a week or a fortnight ago. Also for the rumors of realization sales, it is inevitable after the Alton episode, in the matter of unpaid current liabilities, which has been circulating every day of stock exchange reaction.

In some respects the bond market was a point of greater interest today, for realization sales on the one hand and on the other by effects of speculators for the decline to test the market.

NEW NAME FOR AN OLD BANK

Los Angeles Trust and Savings is Superseded

Pacific-Southwest Allows for Expansion Program

Change Effective This Week; A Bit of History

Effective at the close of business September 12, the name of the Los Angeles Trust and Savings Bank is to be changed to the Pacific-Southwest Trust and Savings Bank. In order to provide a title more descriptive of the institution, following the merger on July 1 of twenty banks in twenty-four cities that portion of the Pacific-Southwest located in California.

"Pacific-Southwest" is descriptive of that economic area lying between Fresno and the Mexican border in the Los Angeles Harbor district—this because railroads and highways have been so constructed that the natural flow of commerce throughout this territory lies to this port.

The urge of these developments resulted in the necessity for the creation of a unified financial system working for the most orderly and rapid development of the entire district.

A GIANT MERGER
As a result, on July 1 there was a merger of banks in twenty-four cities from Fresno south, having total resources of approximately \$200,000,000, under the name of the Los Angeles Trust and Savings Bank pending legal formalities in the adoption of a more descriptive name for the new organization. The banks which were involved in this merger, which will hereafter operate under the name of the Pacific-Southwest Trust and Savings Bank, include:

Los Angeles Trust and Savings Bank and branches.
Union National Bank, Pasadena.
Union Trust and Savings Bank, Pasadena.
City National Bank, Long Beach.
Fidelity Trust and Savings Bank, Fresno.
American Marine National Bank, San Pedro.
Hollywood Savings Bank.
Commercial Trust and Savings Bank, Santa Barbara, with branches at Long Beach and Carpinteria.
Bank of Santa Maria, with branches at Guadalupe, Los Alamos, Alhambra Savings and Commercial Bank.
First National Bank of Redlands.
Savings Bank of Tulare.
Savings Bank of Tulara.
Lindsay National Bank.
First National Bank, Oxnard.
Oxnard Savings Bank.

These banks with the First National Bank of Los Angeles, of which the First Securities Bank, Hollywood has become a part, constitute a unified system, while the First Securities Bank exists for the underwriting in this territory of securities of the highest type.

PLAN OF EXPANSION
The merger was the result of two years of careful investigation of the needs of the Pacific-Southwest. Particular attention to the working out of plans whereby the creation of a unified financial system was given to the agricultural and business interests. By the merger money returned to the Pacific-Southwest in the spring from the sale of the orange crop in the San Joaquin Valley. The marketing of the fall fruit, the elasticity of bank credit, and the elasticity in turn results in additional service to the various communities.

The First National Bank of Los Angeles was granted its charter in August, 1912, taking over the business of the Commercial Bank, which was established in 1875 by J. E. Hollenbeck, who with others, continued in ownership and control of the First National Bank. The initial capital was \$100,000. The reserve \$50,000 and the deposits \$500,000. The resources of the bank were approximately \$1,000,000.

WHY OF NAME CHANGE
The change of name of the Los Angeles Trust and Savings Bank to the Pacific-Southwest Trust and Savings Bank became necessary, because as a result of the organization of the branch system, the name "Los Angeles Trust and Savings Bank" was no longer applicable. Incidentally, this change comes just ten years after the installation of the first branch of the Los Angeles Trust and Savings Bank, which was opened for business on Aug. 31, 1912, at Pico street and Grand avenue in Los Angeles. The second branch was opened on Feb. 24, 1913, and no further branches were added until 1917. The first branch outside of the city of Los Angeles was opened on June 16, 1919, at Avalon, Santa Catalina Island.

During the next two years the bank continued its policy of expansion, its service branches opening of branches in Los Angeles, the metropolitan area surrounding Los Angeles, and followed this in July 1 with the organization of a branch system including the group of Pacific-Southwest banks heretofore mentioned.

NEW YORK, Sept. 12.—The irregular reaction in today's stock market did not indicate any change in the general situation or any new turn in the financial or industrial news. It appeared to represent the kind of halt which comes at frequent intervals in a more or less speculative upward movement accompanied by realization sales on the one hand and on the other by effects of speculators for the decline to test the market.

Such pressure is undoubtedly applied on the theory that autumn revival of business may be retarded more than had been expected or that the problem of fuel distribution may turn out to be more troublesome than was hoped, or that political occurrences may again become disturbing. All these are debatable considerations but no more so than they were a week or a fortnight ago. Also for the rumors of realization sales, it is inevitable after the Alton episode, in the matter of unpaid current liabilities, which has been circulating every day of stock exchange reaction.

In some respects the bond market was a point of greater interest today, for realization sales on the one hand and on the other by effects of speculators for the decline to test the market.

NEW YORK STOCK EXCHANGE

(BY A. P. NIGHT WIRE)

NEW YORK, Sept. 12.—Unusually irregular price movements took place in today's stock market.

Recent leaders yielded to profit-taking and there was abundant evidence of professional selling pressure in other quarters, particularly against Chicago and Great Western issues, which broke sharply around noon.

Weakness in these shares accompanied rumors of possible receivership, which were promptly denied by President Samuel M. Patton, who declared the road was able to meet its obligations and was handling the biggest traffic movement in its history.

There was a fairly sustained demand throughout the session for equipment shares, American Locomotive, Baldwin, American Brake Shoe and Railway Steel Spring each being pushed up to new high records, the net gains ranging from large fractions to nearly 3 points.

Strength of these stocks was in response to increasing the order for equipment by the large railroad systems.

The latest earnings report of Mexican Petroleum, which showed earnings of \$18.41 a share on common stock for the first six months of 1922, as compared with \$17.58 for the first six months of 1921, furnished the cue for a squeezing of the recent short interest, the stock closing at a net gain of 3 points.

Unusual strength of tobacco products which closed at a net gain of 3 points, accompanied revived reports of its possible merger with Schell's Stores and speculative expectation of a dividend before the end of the year.

The rise of more than 4 points in Iron Products was predicted on higher prices for the pig iron product.

Rails shares were inclined to heaviness but net changes were largely fractional. Sugars eased a bit as did copper. Total sales were \$43,180 shares.

Call money opened at 4 per cent and hardened to 4½ per cent by afternoon, holding at that figure until the close. Time money was quiet with no change in the bid and there was little demand for commercial paper.

Dulness in the European markets imparted a heavy tone to foreign exchange rates in the local center. Comparatively little business was transacted in commercial bills. German marks were still quoted below 7 cents a hundred, the reported ultimatum of Belgium demanding payment of 100,000,000 gold marks to six months having little visible effect. The further drop in the Greek rate was interpreted as indicating the abandonment of the Greek government's efforts to maintain a fixed rate of 1.51 for the drachma. Today's rate was 2.75.

UNION OIL SCORES
TWO-POINT GAIN

A gain of 2 points in Union Oil of California, which closed at 16 1/2 bid, was the most important price change in yesterday's active session on the Los Angeles Stock Exchange. The rest of the oil group failed to follow Union's lead, although prices were generally firm. General Petroleum was 1-4 higher at 11 1/4 and Globe advanced 1/4 a cent to 30 1/2 cents. Outman United was 2 cents lower at 24 1/2 cents. Los Angeles Investment forfeited most of its gain of the previous session by declining 3 cents to 15 1/2 bid at the close.

Following are the closing prices in the Stock Exchange Building:

Heaviness in
Grain Market
Causes Slump

CHICAGO, Sept. 12.—Grain markets lacked the snap which has been characteristic of the latter part of the day. Wheat closed 1/2 cent lower, corn 1/4 cent lower, and soybeans 1/4 cent lower. The market was generally heavy and prices were lower.

TO EDUCATE PUBLIC ON AMENDMENTS

EL CENTRO CHAMBER WILL HAVE WEEKLY DISCUSSIONS

EL CENTRO, Sept. 12.—Declaring that not more than 12 per cent of the voters who vote at the November election will know anything about the thirty-five amendments on the ballot, a movement has been started by the El Centro Chamber of Commerce to hold weekly discussions of the different amendments at their dinners held every Wednesday evening.

James T. Coyle, secretary of the chamber, stated today that the plan was being whipped into shape for the education and edification of members of the chamber who, he was satisfied, did not understand the true meaning and significance of the amendments. Prominent speakers, with all the fine points of the laws to be amended at their finger tips, will be employed to speak at the meetings and explain the true meaning of the questions under discussion.

As an example of the general ignorance as to these amendments, which he stated was prevalent among voters, he cited the California State power and light proposition, which he stated was many clever and brilliant men working for both sides for their own selfish interests.

But the imported goods are of inferior quality that they are not worth the money paid for them.

SCHOOL LUNCH RECIPES TOLD

Free Booklet Advises as to Best Foods for Children

The right kind of lunches for school children is far more important than many parents realize. Proper food, put up in an appetizing way, not only benefits the children's health, but even affects their capacity to study and learn.

The United States government has issued a free booklet, "School Lunches," which should be read by all parents. It gives recipes for sandwiches, salads, cookies, etc., suggests various combinations, and tells the proper way to prepare a box lunch.

ONE DEAD, TWO HURT, IN CRASH

Santa Fe Train Hits Auto and El Segundo Woman Dies as Result

One woman was killed and a mother and her 11-year-old son were seriously injured when an automobile in which they were riding was struck by Santa Fe train No. 5, between Parlier and Del Rey late yesterday afternoon.

The dead woman is Mrs. Ella Gunn, 25 years old, El Segundo. The injured are Mrs. Emma Krebhill and her son, Glenn, of Los Angeles.

Arthur Gunn, husband of the dead woman, and the only known relative, is said to be on a hunting trip in Humboldt county. He could not be located here last night.

Miss Edith Krebhill, daughter of the injured woman, driving the car at the time of the accident, escaped uninjured. Trees along the railroad track obscured her view and she was unable to see the approaching train, Mrs. Krebhill stated. At the time they were on their way to Woodlake from Fresno.

A Short Turn I was out prospecting with Larry the other day—in the mountains, you know—and said, "See that little butte over there." Larry is in the hospital now. He was in such a hurry to turn around that he sprained both ankles.—[Saturday Evening Post.]

WOMAN HOMESTEADER TO BE DISPOSSESSED

The Commissioner of the General Land Office has affirmed the opinion of Register Valentine and Receiver Smith, of the local Land Office, in favor of George W. Choate in a contest to oust Jennie A. Bristol from possession of 160 acres of land in the Santa Monica mountains.

The contest had held possession of the acreage for eight years under two homestead entries, but the evidence showed that she had not complied with the public land law as to residence.

BULGING POCKETS BROUGHT ON RAID

Raiding a house at 713 North Broad street late yesterday, Police Officers McHale, Baker and Girard arrested E. H. Cole on a charge of violating the Volstead Act. They confiscated two fifty-gallon milk cans, thirty gallons of illicit liquor and eight barrels of corn mash, according to their report.

Cole was taken to the City Jail. The raid was conducted after the officers asserted they had seen many strangers entering and leaving the residence with coat tails slung up in the back.

Film Actress Fills Card on Auto Accident

Mary Miles Minter yesterday joined the list of those who must necessarily make out reports of traffic accidents. Only she didn't give her well-known name.

Seems as though she considered it more proper to use her real name. Anyway Miss T. Sally appeared on the card in the Receiving Hospital, where William E. Johnston, 1519 North New Hampshire street, was treated after he had been knocked down by an automobile driven by the actress. The accident took place at the intersection of Wilshire Boulevard and Irolo street. Johnston escaped with a bruised hand.

Best Ever Young Gibbs of Smalltown, Kan., decided to travel. Arriving in Chicago, he made up his mind to eat at least one meal in a fashionable hotel. He was getting on famously with the array of silverware, and appeared to feel satisfied that he was passing for a man of the world, when Jackson, the colored waiter, became communicative.

"Been in town long, m'?" "Just came in from New Orleans," said the young adventurer. "Dat so?" "Ab used to live in New Orleans. Now's de Mardi Gras!" "Fina. It's de best I've ever eaten."—[Harper's Magazine.]

Santa Fe Plans Sleeping Cars of Seven Rooms

Sleeping cars constructed with seven rooms to each car, each room accommodating five persons, will be placed in the Chicago-Los Angeles service of the Santa Fe Railway for the fall and winter travel. There will be eighteen of the new style cars. Each room will contain a lower and an upper double berth and a day lounge and bed, with full lavatory and toilet equipment.

"All drawing-room sleeping cars now are being demanded by families on Chicago-California trips," W. J. Black, passenger traffic manager of the Santa Fe, declared yesterday, according to Chicago dispatches. "Travel taste is changing. More room and more comfort and luxury are called for by patrons who travel often, particularly on the more extended journeys."

The new all-room sleepers will be a part of \$1,500,000 worth of all-steel equipment that will be placed in service in the nine trains required for the regular daily limited operation of the company between Chicago and the Pacific Coast.

As unusually heavy travel between Chicago and Los Angeles is looked for this season, and the Santa Fe is planning to handle at least 1000 extra sleeping cars.

"\$5,000 REWARD"

Folk, I read so much in the press about different outfits offering interests for sale in wells they claim are located in the heart of production and over the pool at Santa Fe Springs, that in order to enable you to better determine who is who in this oil game, I am offering a reward of \$5000 to anyone who can show me where any other operator paid the price I did for a like piece of acreage at Santa Fe Springs.

\$5,000 an Acre Cash Bonus and 28% Royalty

The mere fact that they just secured it on a 1-4 royalty tells the whole story. They talk of 20, 40 and 60 acres. When I drill that kind of territory I'll have a thousand acres.

I would sooner be half owner in one well than sole owner of 8 dry holes.

Mail me your check today if you feel lucky, or run in and meet me personally.

PASADENA TO INVITE GRAND ARMY MEET

CROWN CITY DELEGATION OF VETERANS TO ENCAMPMENT HAS HOPES

By a "Times" Staff Correspondent (REGULATED DISPATCH) PASADENA, Sept. 12.—The Chamber of Commerce voted today to try to add the National Encampment of the G. A. R. to the string of conventions the Crown City will have in 1924, its fifth anniversary.

The local post will send a delegation and a file and drum corps to the National encampment at Des Moines, Ia., the latter part of this month, and the Pasadena veterans have promised of support, they say, from other G. A. R. organizations in Southern California.

O. W. Kinsman, Philo Case, the "dramatic" boy of Rhinoceros, Robert Bain, M. L. Spotswood, M. F. Winterburn, Frank Templeton, and E. H. Templeton of Pasadena and Los Angeles, make up the file and drum contingent.

FOSTER'S CALIFORNIAN

Five leases—three fields—sixty acres—two wells immediately—more to follow—no officers' salaries—no office rents—dividends every 30 days.

When the Fosters buy acreage, they buy good acreage and they buy plenty. When the Fosters drill, they drill wells—and they drill them fast. When the Fosters complete their wells, they pay dividends every thirty days.

Six big successes in the Lone Star State testify to that—four wealth-making syndicates, paying dividends at rates ranging from 40% to 75% a year.

CALIFORNIAN'S holdings are in California's great oil fields. Some are right between producers—others in the heart of a zone thick with wells pouring forth from 1000 to 3000 barrels of high gravity oil each day.

Other CALIFORNIAN leases have beneath them oil sands estimated 800 feet thick! Sands that should keep wells flowing for a life time and yielding millions.

CALIFORNIAN's First Two Wells Go Down Immediately

CALIFORNIAN drills her first two wells where she is sure of getting oil—at Signal Hill. Other CALIFORNIAN wells go down just as quickly as CALIFORNIAN's other

leases are as highly proven as are these two on which her drilling bits first race down.

Only 4000 Can Share in Californian

At most, if no one purchased more than one unit, only a total of 4000 people can ever share in all the oil that CALIFORNIAN ever receives from its first two wells—its five leases and its leases and wells that are to follow. For these are, all told, but 4000 CALIFORNIAN units. They represent the purchase of oil—not stock. In buying them, you incur no liabilities—you pay no assessments. Each unit entitles you to one barrel of oil out of every 4000 received by CALIFORNIAN from all its wells on all its leases.

But many Foster clients will buy ten, twenty, fifty, CALIFORNIAN units. They will quickly subscribe the greater part of the units that share in CALIFORNIAN, leaving but a few open for subscription by those not already numbered among Foster's money-making clients.

A liberal part of the petroleum wealth of Santa Fe Springs—Signal Hill and Athens-on-the-Hill can be yours, if you act promptly—if you buy CALIFORNIAN units—if you buy them immediately. Remember, every Foster syndicate ever offered has been greatly oversubscribed.

 Automatic Water Heater
 —Seves—

**Gas
First Cost
Space**

The Ever Ready is especially constructed to meet local requirements and to fit into the small spaces usually allotted for the water heater—only uses gas when you use the water—can easily be regulated to any temperature desired.

The shell is made of 10-gauge galvanized iron — extra heavy, and is absolutely guaranteed against flaring up — no coils to flame—shells tested to 800 pounds pressure.

 Sold on easy
 payments—as low as
 \$10 per month.

The happiness of the newlyweds was shared by a group of friends who gathered at the home of Mrs. Cudaby. The bride and groom were the center of attention, surrounded by friends and family. The celebration was a joyous occasion, with many guests in attendance. The bride wore a beautiful white gown, and the groom was in a dark suit. The reception was held in a large hall, and the atmosphere was festive. The couple received many well-wishes and congratulations from their guests. The event was a memorable occasion for all involved.

Police Blotter Gives Clue to Disappearance

**Photograph and Visit to Cell
Solves Mystery**

The mysterious circumstances surrounding the disappearance last Monday of C. W. Hottenstein, reputed wealthy proprietor of the Monte Cristo Hotel at 117 West Seventh street, were cleared up yesterday by police detectives. Mr. Hottenstein, according to the detectives, was found basking peacefully in the City Jail where he is sitting trial on a charge of larceny. The "discovery" and solution of

me after an all-night search through the nooks and crooks of the underworld by police sleuths. It was believed, because of the parent's hurried manner in which Weinstein had left his apartment in his hotel, that he had been led away to some attic room in a downtown section of the city and murdered for his money. Weinstein had been left to spoil on a table. Several hundred dollars' checks were found in a neat pile where the hotel man had evidently been 'counting them when spirited' away. He had even left his spectacles behind him.

The discovery of the missing

in the city jail was brought forth where Detectives Ewald and Glavin, glancing over the police roster, noticed that a man giving the name of C. E. Clark had been arrested at the Monte Cristo Hotel. Noting that he would know something of the missing proprietor, the detectives visited him in the jail. From a photograph in the hotel's books, they learned that the man was immediately recognizable as Horton. Later the hotel man admitted his identity, the detectives released him.

According to the detectives, Wattenstien was arrested on the inst. by Officers Johnson and Sullivan of the civil guard. He pleaded not guilty and was taken to the city jail. His trial was for Friday at 2 p.m. In default of \$500 bail he was committed to

Handcuffed to Barrow, Starts Hike to Coast

(REUTERS DISPATCH.)
WASHINGTON, Sept. 12.—(AP)—A man who will attempt a transcontinental hike from Washington to San Francisco and return will be handcuffed to a wheelbarrow, according to his journey today after leaving the handcart adjusted by Joseph E. Ransdell of London in the presence of a large crowd in front of the post office.

Starting from the monument, he will hike through the city to New Mexico and return to San Francisco, whence he will hike south through Virginia and North Carolina, eventually reaching San Antonio and other cities in Texas and proceed westward through New Mexico and Arizona to San Francisco. He intends to make a northern route on his return trip via Chicago, and, according to the plan, will arrive back in Washington by June 1, 1923.

(REUTERS DISPATCH.)
WATERTOWN (N. Y.), Sept. 12.—(AP)—John Suber, 35 years old, jumped into the Black River yesterday afternoon after giving his friend a razor for suicide.

Suber, who was a member of the local fire department, was found by a patrolman who saw him in the river. He was taken to the hospital, but died before he could be revived.

Suber's friend, who was with him at the time, told the patrolman that Suber had been suffering from a nervous breakdown and had decided to commit suicide.

ROTARIANS IN GOLF TOURNEY

San Francisco Club to Play at Del Monte

One Hundred Members in a Three Days' Tilt

Shrings in Annual Matches September 22-24

(REUTERS DISPATCH.)
DEL MONTE, Sept. 12.—With the California Golf Championship a matter of golf history, the Del Monte and Pebble Beach courses will not remain idle. There are a number of tournaments to be staged this month and during October.

The Rotary Club of San Francisco has a party of over one hundred coming to Del Monte this coming Friday to participate in a golf tournament that will run on Friday, Saturday, and Sunday.

Secretary I. Feighner of the Rotary Club reports that the rank and file of the club's members are coming down to settle the annual championship. The Rotary Club has a number of good golfers who always furnish much competition and a lot of fun on the Del Monte links.

LINE UP PLAYERS
Next week-end, September 22 to 24, Llanos Temple of the Myrtle Shires will stage its annual fall golf tournament and outing at Del Monte. J. A. Bernard, chairman of the golf committee, has been lining up the players for the tournament for some weeks past and is figuring on a big turnout.

On September 22, 23, and October 1, the Olympic Club of San Francisco is coming down in a body to have its golf tournament at Del Monte. This will be the third annual Del Monte tournament for the Olympians and they have been lining up for weeks past in anticipation of the event. The Olympic Club has made wonderful strides in golf in the last few years, and will probably have a hundred players tee-off.

MARIPOSA IS VICTOR IN RACES

Sloop Sailed by Farwell Boys Annexes First, Wins Dyes Trophy

(REUTERS DISPATCH.)
The series of yacht races for the 1922 championship of Newport Bay and for the Dyes trophy was concluded on Sunday afternoon when a spirited race took place over the four-mile course of the Southland Sailing Club.

"Mariposa," the speedy twenty-eight-foot Mower sloop, was well handled and skillfully sailed by the Farwell boys, and finished first in this final race and thereby won the trophy by a score of 17 points, the "Doris" being second with 13 "Loos" was third with 11 points, "Cyrus" and "Pal-o-Mine" were tied for fourth place with 9 points each. "Black Cat" and "Catamount" are credited with 3 points each, and "Wildcat" with 1 point.

The club announces that the championship trophy for 1923 will be one of the handsomest yet offered for a yacht in competition in these parts.

Mal. Frank & Hutton of the Southland Sailing Club has offered a handsome trophy to be competed for under the club rules by boats propelled by outboard motors at the Evinrude trials. Full particulars will be sent to every proposed competitor. The club requests that the names of all persons interested in water sports (boat sailing, motorboating, rowing, canoeing, etc.) be sent to the secretary. Address: Southland Sailing Club, Box 427, Balboa, Cal.

VERNON GUN CLUB TO HOLD SHOOT SUNDAY

The Vernon Gun Club is to be the scene of a Grand American Handicap next Sunday. This was learned yesterday from President (Pop) Bruner. The event will be held under conditions similar to the ones governing the Grand American Handicap being held this week in the East.

Also next Sunday the opening competition on the Vernon Challenge Trophy will be started. The shoot will be at fifty targets, sixteen yards, twenty-five pair of doubles and fifty targets at hand-caps. The trophy must be won three consecutive times to make it for keeps.

UNITED STATES WINS REGATTA

ABOARD MAHAN, Sept. 12.—The United States won the third of the six yacht races for the British-American cup today, the American team totalling 22 points to the loser's fourteen, although one of the four English entries finished first. The American boats won second, third, fourth and fifth places.

The score at the end of the three races stands 44 to 41 in favor of the United States.

CARDS PLAN TO TOPPLE BRUINS

(Continued from First Page)

The southerners promise to do that little thing, Jim Lawson, the large center, the wily captain of the mighty Long Beach team of two years ago, looks like the leading candidate for Hartman's running mate at end. Lawson is big and fast and knows more football in a minute than Hartman does in a week. He is one of the greatest ends ever developed in the south.

Three Southern candidates, any one of whom is far above the average. Harry Shipley of Fullerton, Johnston of Polytechnic and Dole of Riverside are the three big names eligible for the vacancy for the first time. Shipley, brother of the famous Megui Shipley of California, is regarded as having a slight edge on the others.

The other guard position left open is young Mr. Houck, who played guard for Fullerton while Johnston was playing tackle. Houck is a big moose who is very fast and aggressive and the chances are that he will have to hustle for his job as which ever one of the tackle can make the line hold on second place when he is moved to the center of the line.

Murray Cuddeback, star fullback of the same Poly eleven which produced Johnston and Houck, is leading the candidates for the job at fullback and on the strength of his play last season on the freshman team is regarded as the probable winner of the position but it is not known whether he will be a mystery person named Tull, a local resident who moved in from the north to play for the team and crush Mr. Cuddeback's bright young hopes.

Guy Dennis, the unexcited young demon, who barked the signals for L. A. High for several seasons and who led the Stanford Fresh last year, is the "white horse" of the Cardinals to yodel the digits this season. Dennis has every qualification for the job with the single exception of ruggedness.

Unfortunately when Guy was decorated the stars were the rage and he represents about 140 pounds strung over a considerable distance. Fears are being expressed around the campus lest some rude behemoth should fear the young man in half. However, Dennis has survived a lot of tough battles in his day and the general opinion seems to be that he will be the choice for the job.

Dick Lawson, who coached the numerals for the U.C. freshmen two years ago, is another possibility, although there seemed to be some question regarding his eligibility owing to his having transferred from the southern institution. Lawson is a very capable young man who would be very valuable to the Cardinals as he was a real star when playing for Long Beach and the Trojan Fresh.

FACES TOUGH SCHEDULE

Stanford is facing a rather tough schedule this year and the local rooters are looking forward with considerable misgivings to the fact that the first real contest of the season—the game with the Olympic Club of San Francisco—is only a couple of weeks off.

The Olympic Club has a tough outfit this year with such stars as Carl Majors of California, Patrick of Stanford, Bradshaw of Nevada, King of Annapolis and a whole mass of similar demagogues. The club men recently ruined the team from the U.S.A. New York, headed by the redoubtable Mr. Struckus, fullback on the Pacific Fleet team last year, by a good score and have been practicing for several weeks.

On top of these attributes, the Olympians are coached by Bob Evans, two years ago the mascot of the Stanford eleven, and Mr. Evans has been suspected of nursing a wild desire to trample the Cardinals underfoot. The Cardinals have even many a football collision between the still unconditioned rah-rah and an aggregation of large, tough guys such as the club men and they don't want to see half the variety carried off.

When Coach Kerr tests his little while for the first time on Thursday a huge squad of huskies will answer his call for the opening of practice and no small degree of success may be expected. The Cards, while hard hit by the young material, have a wealth of the young material in reserve and are believed that last year's record of none too happy memory, will be forgotten when Stanford's big red team of 1922 takes the field.

PRESIDENT'S CUP EVENT AT WILSHIRE

The President's Cup Tournament of the Wilshire Country Club is to be held soon and entries for the affair are being received by the officials of the club. There is to be no qualifying round and no entrance fee. Entries will close Sunday, September 24, in order to enable the committee in charge to make the drawings and to notify the contestants in time to arrange for the first round.

The first round must be played between Monday, October 2, and Sunday, October 8. After the first round the tournament will be played off at the rate of one round a week.

The players will be classed in groups as follows: Class A scratch to 12; Class B, 13-18; Class C, 19-24; Class D, 25-30. The winners of each class will be paired in the finals and all matches will be played at handicap. Cups will be presented to the winner and the runner-up and the winner in the other two classes. Cups have been donated by Norman Macbeth.

MATMEN OF CLASS TO MEET

Gardini to Tackle Wladok Zbynsko at Holly Stadium September 20

Romano Gardini, wrestler, once of Italy, now of America, has more than a lot of glory awaiting him if he succeeds in defeating Wladok Zbynsko in their two-hour match at the Hollywood American Legion stadium September 20.

Gardini, in view of his many performances in this country, has proven himself a high-class wrestler. When he first broke into the game he didn't know much about the sport, but, being a shrewd fellow, he soon got on to the ropes. He has come to be a wise man and by his clever handling of himself has worked his way to a position where he is now getting cracks at fellows like the Russians and "Strangler" Lewis. This is the first time in the history of the game that an Italian has been awarded this honor.

In addition to the Gardini-Zbynsko match, Francesco Umberto Rovers will present Taso Mirko and "Toto" Monti in a mixed tag team and another match.

Senior "Boo" Montana, the handsome matinee idol, will referee.

CHESS TOURNEY

A. J. Fink retained the lead in the chess tourney now in progress at the Los Angeles Athletic Club yesterday by defeating Grubill.

Rovers took a firm hold on second place when he lowered the colors of Miskowick. Perry won from Burgh as did Maguire from Fatterson.

The games between Bradner and Barckow, and Smith and Whipple were unfinished at adjournment time yesterday afternoon.

Should Bradner win he will be a tie for second place with Lyon. At present it looks as though the winner of the tourney would be either Fink or Lyon, with the former now leading by half a point with three more games to play.

COUSIN OF LADDIE BOY LUCKY DOG
Owner Wants Pocatello Maid Killed; Life Saved by Police Captain
By a "Times" Staff Correspondent
(EXCLUSIVE DISPATCH)
SANTA MONICA, Sept. 12.—Pocatello Maid, a full-blooded cousin to Laddie Boy, the famous alreale owned by President Harding, is alive today through the timely intervention of Capt. Clarence E. Webb of the Santa Monica police.

Pocatello Maid has been the property of George B. Williams, 117 Pacific street. Recently the animal became affected with distemper. Every effort was made to cure her without result. Finally Williams decided to have the animal killed. According to the Santa Monica Police Station to make arrangements. Capt. Webb learned that the dog was in no actual pain and told Williams that he could provide Pocatello Maid with an excellent home and good care if he would turn her over to him. Williams consented, and the dog was transferred.

Newsboy Tours Resorts With Guns and Cash

Arrested because of suspicions aroused by his wandering about Ontario with a new .22 caliber rifle and inquiring for a "summer resort" a small, bright-eyed boy who gave his name as Earl Farrand is in the City Jail at Ontario on a charge of suspicion of grand larceny according to dispatches from there yesterday. He had with him \$1714.77, a .25 caliber automatic pistol, besides his .22 rifle and a quantity of ammunition for both weapons, which he appeared to have taken from Nogales when left by his father to guard them. The story he told the Ontario officers was that he is thirteen years of age and lives in Hollywood with his father, J. N. Farrand, his mother and a sister of eleven. He went to Nogales with his father, where the latter expected to enter into the laundry business. Left by his father the evening of the 7th inst. with the money and weapons and ammunition with instructions to take care of them until his father's return, he ran away, buying a ticket to Los Angeles with a \$100 bill and since then wandering about visiting Long Beach, Pomona, Glendale and finally Ontario where his wanderings have stopped. He gave his occupation as student and newsboy.

New Blackstone Merchandise
High Standard

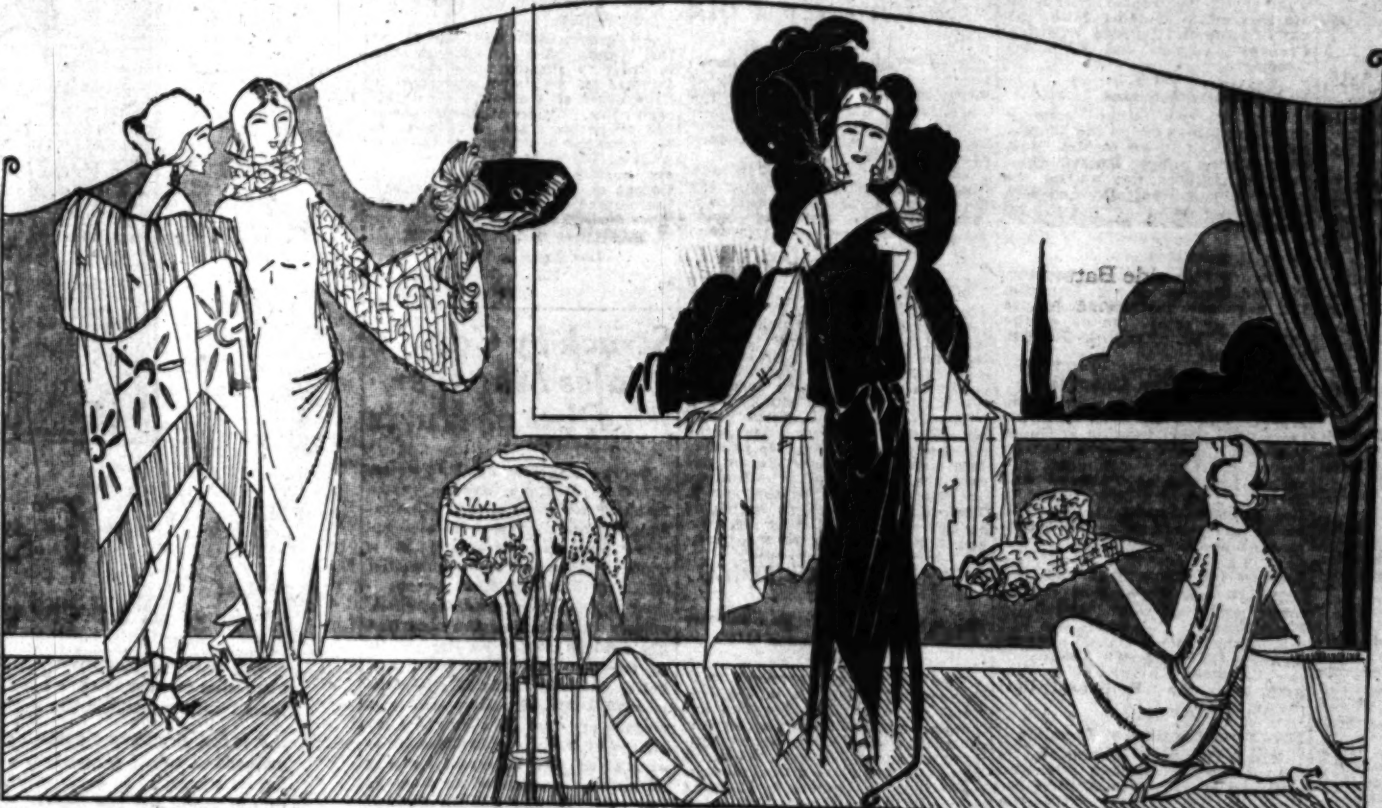

HERE, at Blackstone's, is an assemblage of individualized modes, the exquisite charm of which is immediately recognized by all women and especially by those of a fashion-critical patronage—the authentic fashions of a new season, dominating in style thought, distinctive in creation, comprehensive in variety and combined with value in its most compelling phase. Superb collections of gowns, manteaux, other wearing apparel and personal accessories—glimpses of the autumn mode as revealed by Paris and master interpretations and adaptations by American artists.

—The different buyers of each of the individual specialty shops composing "California's Finest Store" as a whole, is a trained specialist in his or her particular line, therefore, by putting into the planning and selection of Blackstone merchandise all the skill, care and effort that can possibly be therein concentrated, newer, smarter styled, more carefully and skillfully made merchandise is offered and more attractively priced.

—This means that more wisely guided selling service is insisted upon and assured, for we are building this business of Blackstone's not for today or tomorrow, but for next week, next month, next year and the years thereafter.

—The fact is fully realized that only specialized selling service, coupled with specialized merchandising service and close attention to the smaller but equally important details of specialized service, will bring you back again and again to Blackstone's.

—With these thoughts in mind it is but natural to suggest that the purchasing of dependable merchandise should be confined to a store where, because of highly specialized buying and selling organizations, there is every assurance of satisfaction in style, quality and value.

Diet and Health

By Lulu Hunt Peters, M.D.

HOW VACCINE IS OBTAINED

Are we going to have a small-

pox epidemic? In United States

this has been a question for some

time. The answer is, "No, unless

we develop an immunity by having

the disease before or unless we

have a vaccine (vaccinia), a mild,

nondangerous form of smallpox

which is given by vaccination or by

infecting a cow whose udders are

infected by the eruption of cow-

pox. In these cases one usually

is immune. Not always, but

usually.

For vaccination purposes, the

vaccine virus is obtained from

bovine or human sources—human

very rarely now, for the supply

would not be sufficient and because

of the possibility of transmitting

any disease the donor may have.

According to Milton J. Rosenau,

professor of pathology at the

University of California, this is the

way the vaccine virus is obtained:

Young calves are infected with

the virus for seven days to be sure

they have no disease of any kind.

Before vaccination the calf is

very carefully cleaned and the ab-

dominal wall is shaved and made

sterile. The calf is then vaccinated

with a very fine needle. The virus

is obtained from the vaccination.

Fifty per cent glycerine is added

to the pulp and this is ground to

a very fine state. It is then al-

lowed to age.

On the fifth day the animal is

placed upon a special table, after

which the calf is vaccinated. The

site of the vaccination is given

a very thorough scrubbing with

soap and water and a long wash-

ing with sterile water, and the virus

is obtained from the vaccination.

THE WIFE MADE IT

You have probably heard more

than one man say, "Yes, it is

nice; my wife made it." When-

ever you see a man strutting

around without his coat on a day

that is not too warm, you can

safely quote that he is wearing a

home-made shirt and is waiting

for someone to remark that it

looks pretty or looks different or

looks something or other so as to

give him an opportunity to tell

you what he thinks of it. If you

make this remark, don't let

him know that you are making

the first day he wears it because

several afterwards you will have

spent in making this shirt and the

cost of the material and sewing

will be at 45 cents per yard would

then be time and money wasted.

WILL AGAIN DIRECT

SCHERTZINGER QUITS BATON FOR MEGAPHONE

By Grace Kingsley

Even if Victor Schertzinger is, in his odd moments, a composer of successful musical comedy scores, he cannot escape his fate as a picture director. He is leaving his production of "The Scarlet Bat" again to direct with a megaphone instead of a baton.

Schertzinger has had so much success in directing Katherine MacDonald, that R. F. Schulberg, head of Preferred Pictures, yesterday signed him up for her next picture.

"The Scarlet Bat" will be the last picture of the original story from the pen of Fred Stettinham, which is being prepared for the screen by R. F. Schulberg. Work on it will be commenced in about four weeks. In the meantime Miss MacDonald has gone to San Francisco to spend her vacation.

Another contract that was signed at the Schertzinger residence yesterday involves Orville Caldwell, that handsome giant, who was classified by Joe Louis as the "perfect man," when she first saw him on the speaking stage. Caldwell played leading man to Miss MacDonald in "The Lonely Road," wherein he proved that he was not only good to look upon, but that he was one of the promising young leading men of the screen.

Mr. Schulberg is busy preparing for other productions. Plans are being rushed for the Gansler feature "The Hero," screen rights to which have just been acquired by the Preferred Pictures organization. This will be Gansler's third production under his present contract, and it reports from New York concerning the nature of the stage production are to be believed, it should be his greatest.

An expedition to the north woods of Canada is being prepared by Tom Forman for his next picture, "Are You a Failure?" As soon as the cutting and editing of "China," which is now being completed, he will take an all-star company to the Canadian wilderness to make a picture that includes a log jam and numerous other out door stunts that have not yet been divulged.

Lola Lee Recovers

A touching and dramatic feature of the opening of "The Prisoner of Zenda" next week at Loew's State will be the presence on the opening night of lovely little Lola Lee, who has a dramatic role and who has been playing a long engagement at the Loew's State following an operation on her spine.

Miss Lee was taken ill soon after finishing her role in Rex Ingram's great romantic drama. Then it was heard that she was having an operation on her spine. Dr. Ellis Jones volunteered to undertake the delicate operation and she was a more delicate patient than had at first been supposed.

For five weeks Miss Lee was compelled to lie on her stomach encased in a plaster cast. When the cast was removed she was bedridden for another several weeks. Then she gradually began to improve. Two weeks ago she left her hospital and came to the Manhattan Beach, where she is reported as rapidly recovering.

"The most delicate woman," said Miss Lee yesterday, "I am beginning to receive many letters from fans who have been watching the picture in the East and that I shall myself be able actually to attend the first showing here."

Horton Possibly With Morocco

It is just possible that you may have the opportunity of seeing Edward Everett Horton, former matinee idol of the Majestic, in a Morocco production.

It is known that negotiations have been opened with Horton by the Morocco forces, and also it is known that Horton is now on his way West.

Mary Newcomb in "Nice People"

Mary Newcomb, former leading woman at the Majestic, is now shining as a star under Thomas Wilson's management in "Nice People." She is coming to the Loew's State in the play next week.

It seems that there was some little misunderstanding between Wilson and Miss Newcomb, for a while. Then Miss Newcomb said she was sorry and subsequently received one of those "All-in-given-compliments-Christmas" letters from Wilson, and now she is shining as a star in "Nice People," playing all the principal roles of the West, after which she will go back to New York to appear in "In Love With Love."

"But you haven't any new thrillers on," said Miss Newcomb, "at the idea of appearing once more before Los Angeles people who have been so very, very kind to me."

"Better look out," I admonished, "or they'll make you make a certain speech."

"Well, that will scare me to death," said Miss Newcomb, "even if I did used to make speeches for women's clubs."

Warner Baxter Ill

Taken suddenly ill in the midst of his performance in "The Prisoner of Zenda," Warner Baxter, who has been playing the leading role in the new Buchanan play, was rushed to the Alhambra hospital, where he is to be operated on as soon as his condition warrants such action. Winifred Bryson, who in private life is Mrs. Warner Baxter, is in constant attendance on her husband.

Roscoe Karnes went into rehearsal in Baxter's role and was letter perfect in one day. He is creating a very favorable impression in the part. Richard Bell, for whom the Morocco company, has been over Karnes' former role in "Buchanan's Piece."

Whitlock Baby Injured

Talk about actors playing joyous roles, while their souls are full of trouble. That was the case of Whitlock, who is portraying a debonair part in Harry Garson's production, "Old Sweetheart of Mine."

It was Friday morning that Whitlock's little 3-year-old son, a baby, was playing about the breakfast table, upon a boiling pot of tea on her shoulders, burning herself badly. Doctors were at once summoned and her suffering relieved, but it is now thought the little one will have to undergo the process of having skin grafted.

By Edwin Schallert

There are no end of picture players going on vacations just now and making a lot of new plans. The reason? Marshall Neilan has just finished shooting his film, "The Strangers' Banquet," which had one of the largest aggregations of prominent players seen in any recent film. The list included among others Claire Windsor, Claude Gillingwater, Nigel Barrie, Hobart Bosworth, Dagmar Godowsky, Rockcliffe Follows, Ford Sterling, Margaret Leeming.

Miss Windsor, the heroine of the feature, just at present is a very busy lady. For she is hurrying around to the shops to accumulate her wardrobe before she is called for another picture. Mr. Bosworth, who is said to have contributed a convincing portrayal as a leader of industrial trouble makers, is vacationing in the mountains, and plans to take a short tour to San Francisco, where he has been making some other film over there, before returning to New York. His wife, Lucille Watson, is appearing in "The Next" on Broadway.

Mr. Gillingwater, Mr. Barrie and Eugene Packer have all begun vacationing in the mountains. Seabury is continuing his engagement in "The Prisoner of Zenda," which is being shot in the mountains. Mr. Sterling is uncertain whether he will return to comedy or continue in dramatic productions. Various other principals are either talking of vacation trips or planning to go right to work elsewhere. Meanwhile, Mr. Neilan is supervising the completion of his latest picture, "Grandma's Boy."

"Grandma's Boy" Closing

The closing of "Grandma's Boy" is announced for next week. This will be the nineteenth of the showing in Los Angeles. The picture has been screened a greater number of times than any other film over there. The actual number of showings total more than 1900.

For about five months the Symphony Theater has been holding in abeyance the Bessie Ziedman production of "Where Is My Wanderer Boy, Tonight?" This is immediately to follow "Grandma's Boy." The feature was made independently, and features Cullen Landis in the principal male role. Many other interesting features will, it is announced, follow this human interest story.

Bowl Concert Pleases

Another magnificent showing was made in attendance at the Bowl last night at the Hollywood Bowl. The affair was given the official title of "Greater Los Angeles Bowl," and was a most successful interest was presented under the direction of Alfred Hertz.

The principal selections were the "Eurythmics" Overture, the Prelude to the "Afternoon of a Faun" by Debussy, the "Entrance of the Gods into Valhalla," from Das Rheingold, and the Prize Song "Die Meistersinger," by Wagner, and the "Marche Slave," by Chopin.

WOMAN KILLS FIRST DEER

LINDSAY, Sept. 12.—Mrs. H. R. D. Shumaker of Lindsay, bears the distinction of being the first woman in this season in this part of the valley to kill a buck in the Sierras. Mrs. Shumaker has returned from Junction Meadows where she shot and killed a five-point buck.

Judging from the number of boys and girls who have taken advantage of Fred Miller's special admission price of 25 cents at Miller's for "Just Tony," it is the town has been about the remarkable company. Of course, Tom Miller has always been a favorite with the kids and "Just Tony" is fair to make him a walk for first honors with the young folks at least. "Just Tony" is an unusual picture, and the things that Tony and his master do, it is the kind that make people love pictures. It is a real answer to the cry for novelty in pictures and looks as if it were due for a long run.

FLORENCE VIDOR'S NEXT

There is one star who isn't working about not being able to buy shoes for the baby, and that star is Florence Vidor. Miss Vidor's next starring vehicle will be a film version of Booth Tarkington's story, "Alice Adams." It will be made at the King Vidor studio, and it is quite possible that Mr. Vidor himself will direct unless he finds himself too busy with the cutting and editing of "Quincy Adams Sawyer." The beginning of his wife's picture play.

Florence Vidor expects to begin work on her newest vehicle within a fortnight.

FIRST HORSE TO STAR

ON STAGE OR SCREEN

Few pictures filmed in recent years represent a closer approximation to the "Just Tony" than "Just Tony" which is breaking all house records at the Miller Theater. The picture is nominally Tom Miller's star, since it is a Tom Miller picture, but the horse, since it is Tony that interprets the title role and the important characterization.

Incidentally, it may not be amiss to say that the Tom Mor-pony is the first horse that has ever been given a starring role in a picture. The picture is a Tom Mor-pony picture, and it is known that Horton is now on his way West.

BIRDS ROOST IN THE LOVE NEST

As the poet paraphraser might put it, the Birds of Paradise are roosting in "The Love Nest" this week at Dalton's Broadway Theater, where the Birds of Paradise have company in being featured in a happy musical melange, which Producer Ted Howland has seen fit to title "The Love Nest."

At Franks and Jack Miller furnish plenty of laughs as principal comedians. Jack and June Laughlin, Ruby Darby and the supporting cast include a number of musical enjoyment of the show, while the chorus is seen in dancing and singing in the front row very much to the credit of the show.

"Trapped" the A. C. Thrilling aerial photoplay, starring Lester Cuneo, is the photodramatic offering of the week.

Lesson Taught by "Manslaughter"

"Manslaughter," the Cecil De Mille production, now showing at Grauman's Rialto, gave a second week, has caused much favorable comment from city officials. Justice William B. Baird said after viewing the picture: "A splendid picture of conditions they exist today. This picture would be seen by everyone and nearly to the present picture industry teaches that the way to success is by the law-breaker must be paid. The disregard of human life at present is appalling."

Judge Charles C. Crill said: "Manslaughter" is a good story, well told, as full of lesson as it is of thrills in the fast driving, auto chases and portrayal of the changing and death which a motor cop takes. Meighan is always good, and the picture is a most enjoyable and uplifting picture. It will endear him even more to the public."

With Thomas Meighan are Leatrice Joy, Lois Wilson and a supporting cast including, in the part, Julia Faye, Edythe Chapman, George Fawcett, Jack Mower, Cameron Mackenzie, Doris Cummings, Mickey Moore, James Neill and Sylvia Ashton.

COMBINED SHOW GREATEST EVER

Five Performances Carried on at One Time

Circus Housed in Greatest Tent in World

Ringling and Barnum Offer Much for Money

Generous offering is made by the Ringling Brothers, Barnum & Bailey's combined show which will show here till the 14th inst., inclusive.

With five performances going on in as many different sections of the "the greatest tent in the world" one needs the services of five pairs of eyes to be able to see nearly all there is. If one watches the gyrations of some aerial gymnast as she "dances the law of gravity" one is sure to miss some other equally brilliant performance at either of the four other performance places.

The jungles of Africa furnished their quota of wild animals which performed surprisingly well and whose trainers are deserving of praise for their ability and bravery.

DANCING HORSES

Then there were horses which did fancy steps, latest jazz steps, and which in turn were shown a thing or two about steps by the elephants when they cut loose.

Gymnasts and acrobats and acrobats galore flew through the air, twisting themselves into knots and out. In the Sea Tropic Troupe a woman bears the weight of a family of eight or more; Milla, Lettice while around some fifty feet up Ernest Clark of the Clarkons simply does pretty much as he pleases in the air.

The Reifenshaws do many feats on horseback that many would not dream of doing on terra firma.

CANINE COMEDIAN

All loyal with his dog act and the canine comedian is one of the high spots and wins much merited applause.

Of course there are an army of clowns who offer endless funny stunts, many new and others old, but all diverting. Their trick Ford is big hit as it is the elephant and then comes forward at command.

In the menagerie are the elephants, Bengal tigers, lions, camels and giraffes.

ROBBER Baffles Hunters

Net Spread in Hollywood Fails to Bring in Bold Negro Bandit

Police detectives late yesterday were searching for a slim six-foot negro of "very dark complexion" as the lone bandit who shortly before noon yesterday was reported to have held up W. G. Barnes, cashier in the Oppenett Creamery Company's branch at 1050 Lillian Way, Hollywood, and escaped with \$1400 in cash.

Under the personal direction of Detective Captain George K. Home, Hollywood detectives in half a dozen automobiles patrolled the entire Hollywood district while officers from Central and other substations searched street cars leading from the suburbs of the city.

At a late hour every effort to capture the bandit was unsuccessful. The quick setting of the net failed the detectives as within a few minutes after the robbery was said to have taken place officers were spread about the district by Capt. Home.

According to Mr. Barnes' report to the police, he was surprised by the negro bandit as he was stooping over the creamery company's safe. At the command of the bandit to keep still, he looked up, he said, into the muzzle of a large revolver. The bandit, he said, had entered through a side door, compelling him to stand with his back against the wall the bandit, he reported, then took the money from the safe and fled.

Charter Board to be Elected at Beach City

By a "Times" Staff Correspondent (EXCLUSIVE REPORT.)

VENICE, Sept. 12.—By a resolution adopted by the Board of Trustees last night a special election for a board of fifteen freeholders to frame a charter for the city of Venice will be conducted October 17.

The Citizens' Charter Committee will meet tomorrow night in the Abbot Kinney school to select nominees to serve on the board. A petition bearing the names of but ten voters is all that is necessary to put a candidate's name on the ballot.

DRY OFFICER WET, WIFE SAYS IN SUIT

DESTROYED SEIZED LIQUOR BY CONSUMING IT, SHE ASSERTS

Clarence L. McGuire was a law unto himself. The Eighteenth Amendment meant a lot to some people, but to him it was only a job. And what a mere job among friends! Yesterday Mr. McGuire was sued for divorce, charged by his wife with not only being a prohibition officer, but with being a wet one.

FIND GHOST TO BE VERY MUCH ALIVE

Patrolmen at Long Beach Surprise Beautiful Woman Walking in Sleep

By a "Times" Staff Correspondent (EXCLUSIVE REPORT.)

LONG BEACH, Sept. 12.—A slimy wraith seen on the beach near Belmont Pier during the early hours of this morning by passing motorists brought Patrolmen Dunn and Brown to the beach in search of a "ghost." Taking up their position behind a concrete pier, the officers waited, their minds filled with doubt and disbelief.

Suddenly both officers rubbed their eyes and peered through semi-darkness toward the water's edge, 500 yards away. There in plain sight floated a slimy white vision of loveliness that brought the officers to their feet. Still believing they were the victims of their own unsteady minds, they advanced upon the wraith and closing in they reached out their arms, still convinced they would grasp thin air.

But there was a sudden scream in high soprano and the bewildered coppers found themselves embracing a very substantial and pretty human being. She was clad only in the sheers of thin silk nightgowns and that was all.

The woman, according to the police report, was Miss Rhonda Gould, 28 years old, of the Shoreham Apartments, 28 South Magnolia avenue. She had been waiting in her sleep. Bewildered by the presence of the officers who awakened her, she was unable for several minutes to give them her name and address. She was wrapped in a blanket and taken to her apartments after she told the police she frequently walked in her sleep.

ASSERTED SWINDLER GETS FIRST HEARING

H. C. Stages, one of two men accused of obtaining \$2000 from P. M. Reidy under false pretenses, was arraigned yesterday in Justice Follette's court. It is charged in the complaint that Stages asserted that he possessed three certificates of deposit of the First State Bank of Los Angeles, amounting to \$2000, and obtained that sum from Reidy. Bail in the case was set at \$75,000 and the hearing was set for Friday.

JAPANESE ACCUSED BY BOY'S MOTHER

By a "Times" Staff Correspondent (EXCLUSIVE REPORT.)

SANTA MONICA, Sept. 12.—Charging that Yamato Ikeda, a Japanese residing at 700 and Main streets, demonstrated some "Jiu-jitsu" holds on 12-year-old Jimmie Crum after he had engaged in an altercation with some of the young Ikeda's, Mrs. Harry E. Crum today secured a warrant charging battery from Judge King.

According to neighbors, the Crum boy and some others became involved in an altercation with the Ikeda's. Mrs. Crum said that the Japanese threw the boy down and pinned his arms behind him in true jiu-jitsu style.

FUNERAL SERVICE FOR MISS RANDAL

Funeral services for Miss Mildred R. Randal will be held at the Bramble Funeral Parlor Thursday at 2 p.m. Miss Randal died Monday, Sept. 10, after a long illness.

She failed to recover from an operation performed four weeks ago.

She was a nurse at the Pacific Hospital and came there two years ago after finishing her training in New York. She leaves a mother, Mrs. Ruth Randal, of Hollywood.

DOUBLE BILL

Next week at Grauman's Theater another double bill will be presented—the George Melford production, "Burning Sands," and "Poor Papa," an adaptation by Olga Printzlau from the book by Arthur Weisell. The characterization of Daniel Lane by Milton Sills is a beautiful one. Wanda Hawley as the present-day type of girl who has had her own way in everything imaginable, but who is treated with indifference when she loves, others in the cast are Jacqueline Logan, Robert Cain, Winter Hall and Louise Dresser.

SHORTENS VACATION

Will King has consented to top off a week from his vacation, which was to have followed the current show, "What's Your Husband Doing?" at Pantages, and will extend his stay in Hollywood by that length of time. This postponement of his farewell to Los Angeles will permit the presentation of "Poor Papa," one of King's most popular comedies. Immediately after the closing of "Poor Papa" Mr. King goes to San Francisco to open his winter season there.
